Averages at this season of the year count for very little. However, those printed below show two things con-clusively. One of these is that Topeka is leading the league because of her good pitchers, rather than because of the batting and fielding ability of her lan. 2.

The other thing that the averages show is that Lincoln is occupying a Omaha. In addition to pitching a string of twirlers. In club fielding good game, Blodgett made a home run and a double.
